The meeting will be followed by a banquet, at which Mr. McKim will be the guest of hence. There is much speculation here as to the reasons of the British monarch's selection of Mr. McKim for this signal honor. The renovation of the White House has been universally criticised and the President and Mrs. Roosevelt were greatly disappointed in the work. They have refused to express any sentiment regarding it, but their views were frequently given to close friends, and they were not very complimentary to Mr. McKim. The work was publicly criticised in Congress and in the press of the country, which has almost unanimously condemned the enormous expenditure of money for such meager results. Another significant fact is that the President, about a month ago, dismissed Mr. McKim and placed Colonel Symons, Superintendent of Public Buildings and Grounds, in charge of the unfinished contract. It is considered impossible that any one who has been in the United States at all for the past year or has rend the American press, could be ignorant of the views of the American people and of American architects on the Subject of the renovation of the White House. This Would Relieve Otherwise Troublesome Situation-French Pilgrims Are Received.

Rome, June 9-The negotiations between he Vatican and France regarding the attitude to be assumed by President Loubet toward the Pope during the President's coming visit to Rome are at a standstill, The Vatican hopes a change will occur by Prance modifying the situation. If no change takes place the idea prevalls that M. Loubet will not ask to see the Pope, thus avoiding a refusal, which would necessarily bring bout a rupture between France and the

The authorities believe that by M. Loubet The authorities believe that by M. Loubet and the Pope ignoring each other the present status of the relations between the church and France will be maintained.

The Pope to-day received 300 pilgrims, returning from the Holy Land. They were mostly French. The audience lasted twenty minutes. Only a dozen leaders of the pilgrimage were permitted to kiss the hand of the Pope, who addressed a few words to them and gave the apostolic benediction to all. The pontiff urged the French pilgrims to pray fervently "for dear France, which needs it so much."

BANK FAILS TO COLLECT POLICY HELD AS SECURITY.

Supreme Court Fixes Date for Execution of N. J. Privitt, Convicted of Murder.

REPUBLIC SPECIAL.

Jefferson City, Mo., June 9,-In the Suoreme Court to-day, in the case of State vs. Newton J. Privitt of Sullivan County, the lower court's decision was affirmed and date of execution set for July 10, 1903. Privitt killed a man named John Wolff in November, 1901. Wolff had been intimate with the defendant's wife and agreed with Privitt to leave the county. Later, an armistice was fixed up between the parties and Wolf came back, and a few weeks later was waylaid and killed by Privitt.

accept the vice presidential nomination. He has gone on a sea voyage by the unanimous consent of every elector in lillinois. The doctors assured him before he departed that he was immune from seasickness, as it has been discovered that seasickness is a brain disease. Yates is safe."

Mr. Mason thought a minute and then centinued: "The strength of Yates and his crowd in Illinois was correctly measured Monday of last week, when about twelve out of sixteen Judges of the Lorimer and Yates brand were defeated by 10,000 to 20,000 votes in a county that gave to McKinley 100,000 majority."

Mr. Mason was asked as to the presidential situation in Illinois, but he said he was so much engaged in trying to discover some remedy for the Wester: floods that he declined to discuss anything else.

However, he got back to a discussion of Gevernor Yates, and said: "Every time Yates has had a candidate in the field, from Cairo to Waukegan, from the lake to the river, that candidate has gone down to defeat. Why, even the men who have used him for the last three years are looking about for another candidate for Governor.

"It was because of these conditions that I was compelled to smile when I heard that Yates had decided not to accept the nomination for Vice President. Again I say, he will not accept." and killed by Privitt.

An interesting case to life insurance companies was decided in the case of Nichols against the Mutuat Life of New York.

Sam Harris of St. Louis, who was agent of the company, had made three payments on a policy of the company for \$5.000, when he made a loan on the policy at a bank. The fourth premium was due on the policy on April 8, 1889. Harris did not renew the pelicy and the bank failed to pay the premium to protect itself.

On November 28 of 1899 Harries died, owing the bank \$5.000. The bank holding the policy as collateral, attempted to collect the face of the policy, but the company offered the automatic paid-up value of \$805 instead, when the suit was instituted, resulting in favor of the insurance company. A somewhat analogous case was decided by the court some time ago in Smith against the same company.

That decision was against the company then because the policy was in the same.

That decision was against the company then because the policy was in the possession of the company as collateral on a loan, and the court held that it was the duty of the company the keep the policy alive so long as there was a cash value balance due the assured. As this medal is given annually to some one who has accomplished eminent work it is presumed that King Edward thinks McKim's renovation of the White House a signal feat. Some of the officials jocularly suggest that this medal is Mr. McKim's reward for reproducing the chapter-room by Sir Christopher Wren in Westminster Abbey as an appropriate design for the state dining-room.

The news that King Edward intended to honor him was conveyed to Mr. McKim through the Brilish Ambassador. Sir Michael Herbert. The medal will be given
